Damaris Poppe

dpoppe@harding.edu | (870) 517-9344
Github: https://github.com/dpoppe7

A reliable and detailed-oriented individual looking to secure an internship as a software engineer. Eager to learn every day where skills in coding, troubleshooting, and testing will be helpful in the delivery of state-of-the-art software solutions.

EDUCATION

HARDING UNIVERSITY - Searcy, AR | January 2019 - Present (December 2022)
Bachelor of Science in Computer Science, Minor in Math
- Relevant Courses: Mobile development, Object Oriented Programming, Algorithms, Operating Systems, DA

TECHNICAL SKILLS

- **Programming Languages:** C++, C#, Kotlin, Swift, Python, HTML, CSS, Javascript, PHP, SQL.
- **Technologies:** React.js, MySQL, Git, Figma.
- **Operating Systems:** MacOS, Windows.

PROJECTS

Password Manager, Android app
- Designed, developed and tested a password manager app, written in Kotlin, that allows the user to store different account's data such as username or password, and displays if their account has been involved in a data breach. Integrates Volley library to request data from a 3rd party API "Have I been pwned", obtains a list of different sites where account's data has been compromised.
  - Implements Shared Preference to store user authentication, enables to use login handle or create new log in.
  - Implements Recycler Views to display different cardviews in the app's main screen for each entry created.

Rocket Rush, 3D game in Unity
- Responsible for the User interface implementation and design in Unity of a space themed 3D game, created as a group project for Software Development capstone class.
  - Led and set up different meetings and deadlines as Product designer/UI leader of a team of 5 individuals.
  - Created animations in Blender and worked with 3D models, coded in C# to implement assets into Unity.
  - Collaborated writing code for the game core logic and architecture.

Personal Website
- Developed a mobile responsive web page portfolio using JavaScript frameworks, React.js, CSS, HTML.

VOLUNTEER WORK

Disaster Relief Volunteer - December 2021
- **Helping Hands Warrior Warehouse, American Red Cross -** Fort Knox, Kentucky
  - Provided assistance and direction to various families affected by tornadoes, communicating effectively to guide them inside the warehouse and locate different supplies from stock.
  - Assisted other yard worker teams to receive, count and record data manually of multiple donations.

- **Churches of Christ Disaster Response Team -** Mayfield, Kentucky
  - Collaborated with the interaction between families and managers to fill out supply request forms, both English and Spanish speakers, ensuring accurate communication.

ADDITIONAL SKILLS

- Fluent in Spanish and English
